

Go Plastic Free

This summer, GreenTown is teaming up with **#plasticfreejuly**.

What is Plastic Free July?

Plastic Free July is a global movement that provides plastic-alternative suggestions to those who wish to reduce plastic pollution. Join GreenTown during the month of July and beyond for suggestions on how to eliminate single-use plastics from your life and your community!

Why go plastic free?

It is easy to prioritize convenience over sustainability. But many do not realize the long-term effects single-use plastics have on the planet and on our health. From production to purchase to pollution, single-use plastics serve one short-lived purpose, but leave behind litter and toxins for thousands of years. Instead of decomposing, they break into pieces called microplastics, which make their way into water, soil, wild organisms, and even our bodies.

Fortunately, there are many easy ways to reduce your plastic consumption. With our current plastic crisis and a multitude of plastic swap-outs, why wouldn't you go plastic free?

Take the challenge! Win a prize!

- **Sign up** for weekly emails during July OR
 - **Follow** @greentownlosaltos on Instagram
- You'll be entered to win our zero-waste raffle prize!
